

Lions Logo Background Instructions

Attached is the Lions Logo with a black background edging, save it to my pictures or my documents, or a place you can find later.

XP:

1. Click properties which should bring up the display properties dialog box.
2. Now, click the desktop button on the dialog box. There should be a list of backgrounds displayed in the box. Click the browse button on the dialog box to find the Lions Logo you saved earlier. Add the image to the background files. The new file should be set as the new wallpaper. Click apply and then OK.
3. Also change the background display color to black.

Vista:

Your **desktop** background (also called *wallpaper*) can be a digital picture from your personal collection or one that comes with Windows. You can also select a color for your desktop background or use a color to frame your background picture.

To change the desktop background

1. Open Desktop Background by clicking the Start button , clicking Control Panel, clicking Appearance and Personalization, clicking Personalization, and then clicking Desktop Background.
2. Click the picture or color you want for your desktop background.
If the picture you want to use is not in the list of desktop background pictures, click the Picture location down arrow to view other categories, or click Browse to search for the picture on your computer. When you find the picture you want, double-click it. It will become your desktop background and appear in the list of desktop backgrounds.
3. Under How should the picture be positioned, choose to have the picture centered on the screen, also change the background color to black

and then click OK.
