

DISTRICT GOVERNORS AND HALLS OF FAME

The Evolution of District 2-S2

One of the first tasks of the directors of Lions International was to divide the USA into districts for their organization and administration, and to appoint a District Governor over each.

In the first sectioning, there were nine districts, nationwide. Some parts of the country where there were no Lions clubs had no districts at all. The first nine districts were created right along with the association of Lions clubs on June 7, 1917. Lionism spread rapidly, to even include states not attached to any district, and in some areas the number of Lions clubs was too great for any one governor to handle.

In 1921 our entire nation was re-divided into seventeen districts and subsequently renumbered.

The original (1917) plan had the districts numbered geographically from the Pacific coast, with ascending numbers eastward. But in 1921 the district numbering revision set Illinois as the Lion's "district" and numbered Illinois as district #1. Since then, numbers were granted on the basis of a region's membership ranking. Texas, having the most clubs and members became district 2. Closely behind was Oklahoma (District 3). This was the method that all seventeen districts were renumbered. In general, the districts are organized along national, state and provincial lines. Where warranted by the number of clubs and Lions, districts can be broken down into sub-districts. in this case, the original district is called a multiple district.

In 1930 district 2 was sub-divided into five districts 2T, 2E, 2X, 2A, and 2S.
